ONE DOLLAR AND FIFTY CENTS A YEAR IN ADVANCE

CONGRESSMAN J. M. ROBISON SPEAKS FROM SHOULDER ON DELAY IN RIGHT OF WAY

An important meeting was held at the Court House Monday when the status of the State and National Highway was thoroughly thrashed out. Judge J. D. Tuggle was chairman of the meeting and opened by saying that he did not know any person in Congress as interested in this road as is Congressman Robison and he took it that every citizen of Knox County is likewise interested.

He then said that the State and Federal Road Commissions have no time at all for disputes that are taking place along the right of way for the present road. Citizens are losing sight of the principal good of roads and are engaged in trouble among themselves. The truth is, "where they want good roads today they are getting them; where they do not want them, they are not getting them." While the State and National Governments are furnishing one half of the road cost each and we are not paying one cent of the cost of construction, people who live along the way are raising hell, which is not helping a bit. The right of way between Corbin and here is in fine shape, but there is lots of trouble the other way.

County Attorney James S. Golden said the people seem unable to realize the big asset such a road will be to them. Farms are going to increase in value, the farmers are going to be able to bring in their products to market and send their children along a good road to school. He said the State engineers had that it best to change the route over which they and the National engineers have supreme control.—Congress and the Fiscal Court none. There are owners who do not want the road and against them the county has had to bring action of the law. Only one has accepted a settlement in spite of the fact that the allowances were generous. In one case an injunction has been filed where infant heirs are concerned. Men have refused to take \$100 and \$200 for a few feet of their property.

S. J. Watkins, State engineer, said the Flat Lick construction was begun a year ago. In two days trouble was encountered near the Bell County line. The contractor had to move forward. At Flat Lick he had to do the same. The Odd Fellows of Flat Lick indicted the State engineer and contractor, they were tried in the Circuit Court, convicted and fined \$51 and costs. The offence charged

against them was that they had moved a platform in front of the Odd Fellows' building which was on the right of way as planned. They went forward again and encountered so much trouble that Mr. Watkins had to spend about half his time over the right of way troubles. They could not go ahead this side of Turkey Creek on account of fence trouble. The land holders said they had not been satisfied. The County Officials said they had. THE STATE IS PAYING FOR MOVING THE FENCES which they did not agree to do and have already paid out in the neighborhood of \$2,000 for this work. Some of the land owners even USED THREATS OF PERSONAL VIOLENCE. They could probably have finished metalling the road had there been proper co-operation.

In the case of the Odd Fellows platform, which it is admitted was on the right of way, the State ever offered to build a concrete wall and cement steps, but the committee replied that they did not have time to talk it over.

If we cannot get a right of way it is hopeless to build a road.

It is said that in the Bluegrass, where land is worth \$300 to \$400 per acre, the cost of right of way runs \$15 to \$20 per acre. In the Mountains where the land is worth \$15 to \$20 per acre, the farmers ask \$500 to \$1000 per acre for right of way.

County Attorney Golden asked for time to state that he was not in sympathy with the move to indict the State engineer and contractor, nor was Mr. Snyder and he stepped aside to permit another lawyer to prosecute the case.

It should be kept in mind that these men were indicted for following the plans laid down for them by the State, were working on the line given them to follow, which plan and line were to eventuate in a \$1,000,000 road past the building in question. It is understood by the Advocate that Judge R. S. Rose later quashed the fine, tho it is also stated the Odd Fellows have brought suit for damages against the gentlemen in question. We trust that they, as patriotic citizens of Knox County, and intelligent men, will reconsider such action which appears incredible under the circumstances.

Congressman J. M. Robison said his talk might hurt him politically, but he made it plain his remarks were not intended for the 999 people out of every 1,000 of Knox County, but for the few who are blocking the wheels of progress for selfish

reasons. He said:

"The road authorities of Frankfort and in Washington tell the Congressman that Knox County—my county, the county I love and live in, has the worst name of any county in America in the matter of roads. They say there is more obstruction to good roads than in any county in America. They also say they find that people are threatening their men with shot guns and pistols to prevent them building good roads. When I heard this kind of talk it hurt me because I knew that the overwhelming majority of my people want good roads, but there are some road hogs. A man who knows that a good road is coming and holds up the taxpayers of the county is just a right of way hog who has got in a close place and holds you up. I have as much respect for him as I have for the man who holds you up on the highway. The fellow that is 'going to be ruined,' as soon as he gets your money finds he has a fine property for sale 'on the Dixie Highway.' Such men should be made to feel it uncomfortable to live in Knox County.

"Congress paid you the high compliment of passing my bill appropriating \$80,000,000 to go into roads THIS YEAR and a number of people with pistols and shotguns say you shall not get the benefit of that money. There is \$160,000 being spent among them for grading the road, contributed by every other part of the nation and the road men have to be run over by gun men and pistol toters and be indicted and fined. 'The reason the contract has not been let to build the Corbin end is because this end was not ready and the money went to some other section. When we quit this foolishness we shall have a water-proof, dust-proof highway costing \$40,000 per mile from one end of the county to the other.

"Then, under my bill, Kentucky, as a state, will have to keep the road in good shape every day of the year.

"The routing of the road may not be just to your liking, but do not let little peanut politics prevent the spending of a million dollars in the county which will secure us a road that does not cost us a cent and which will raise the value of every foot of land along the road. Congress and the State have left the decision as to the route of the road up to the National and State Road Commissions. I have no power to say where it will go, the Fiscal Court has no power to say where it shall go. This power rests, as I have said, with the joint Road Commissions, State and Federal.

"If you lose this road it is your own fault and the fault of no one else."

The speaker said the Mountain counties are being treated fine in the matter of road money apportionment. Mr. Boggs, the State engineer, stating that "Mr. Robison has secured more money for Kentucky than all the rest of the Kentucky Congressmen put together and he would see that the Mountain section is well taken care of." Of the \$1,000,000 Federal aid money spent in the United States this year Kentucky's part was about \$15,000 for each county of which Knox County got \$160,000 and within the next year we shall get about another \$1,000,000 if we clean up the right of way situation. Laurel county this year got \$167,000, Whitley, \$175,000, and Bell and other counties of the 11th District also got money which shows that the 11th District is faring well under the law. The speaker said he hoped the people of Knox County would not permit certain men to obstruct the building of the road which is paid for out of the taxes of the rest of the country.

The Congressman said, "With such a road a farm can be split in half and the road run thru it and each half sell for more than the whole of the farm as it stands at present. The road hog, who calls the merchants profiteers when they make perhaps fifty per cent profit, himself wants twenty times the value for a piece of land. What kind of a profiteer is he who is keeping us from getting good roads?"

The speaker said he hoped that the people would see to it that the fine assessed against the State engineer and the contractors over the Odd Fellow property is set aside next Circuit Court. (Mr. H. H. Owens, who with Mr. T. D. Tinsley, were for the defendants, informed the Advocate that Judge Rose had already done this, which will be

good news to our citizens and to Judge Robison.)

Congressman Robison spoke of the hard fight he had to make to get his bill thru, due to the bitter opposition of the members from the big cities, and which caused his attendance for three days and three nights, lest the one vote necessary should put the bill out of business.

"Build the fire of public opinion under those who, for a few dollars, are preventing this great work being done. For the sake of the 999 out of the 1000 good folks I hope these men will get right."

Judge Tuggle, on a motion by Dr. E. T. Franklin, was asked to appoint a committee to see those who are holding up the road and get them to come across without delay.

W. P. McKeethan, of Arden, spoke of the fine roads of other countries and what may be accomplished by good roads in marketing produce. They mean orchards, truck gardens, Jersey cows in every little valley and prosperity generally. The savages have better roads than we of Knox County, and they build the roads with their hands.

Robert W. Cole paid a high compliment to the splendid work of our Congressman in connections with roads, which is greater than that of all other Kentucky Congressmen combined. He said he would be glad to assist in any way in his power in settling disputes.

Everybody knows what good roads mean. Let us get this one.

ROBISON-GREGORY

The marriage of Tom Gregory and Miss Mary Helen Robison was consummated at the home of the parents of the bride, Mr. and Mrs. James Robison, Niles, Ohio, on Monday, Sept. 13th. The young couple are now at Wynnewood, Okla., where the groom has a fine dental practice.

Tom Gregory, who is the son of Mr. and Mrs. J. A. Gregory of this city, has a host of friends who will wish him and his bride many happy years of life together, with every blessing that may be good for them.

CARR-WHITE

Lucien White left for St. Louis, Mo., Monday afternoon to meet Miss Elsie Carr where the young people were married. From there they went on their honeymoon and will return to Barbourville.

Miss Carr has been on a visit to her people in Montana, following two years work at the University Mill as stenographer and private secretary to Mrs. Nola Minton Vail. Miss Elsie is a young lady of much personal charm and has a disposition which has endeared her to her many friends.

The groom is the manager of the mill floor and has made good. He is a fine, manly young man, who like wise has a host of friends.

The Advocate joins with other friends in wishing them a happy married life.

METHODIST CHURCH

Sunday will be the closing one of the conference year. Every member and friend is urged to be present at the services. The pastor, John Owen Gross, will preach at 11 a.m. and 7:30 p.m. Sunday School at 9:45 and Epworth League at 6:30. A welcome awaits you.

AFTERNOON RECEPTION

Mrs. J. D. Tuggle was hostess on Wednesday afternoon at a reception at her home on South Main St. in honor of Mrs. Lillian Albright Black and Mrs. Lucy Tinsley Cobb. Seventy five guests were invited as these young matrons have many friends in this their native town.

The guests were met at the door by the hostess and Mrs. C. F. Rathfon who presented them to the honor guests. Mrs. A. W. Hopper, Mrs. C. P. Kennedy and Mrs. G. M. Richards assisted in serving the dainty refreshments of Neopolitan ice, cakes and rose decked milks.

ROAD COMMITTEE

The following is the Road Committee appointed by Judge J. D. Tuggle to straighten out the right of way snarl along the line between here and Pineville. Robert W. Cole, C. C. Smith, Ray B. Ballard, W. H. Davis and M. G. Disney. The committee went out on the route Wednesday

CUMBERLAND RIVER SPAN FALLS AND 7 ARE HURT

HARLAN, KY. Sept. 12.—Seven persons were injured when the cable ropes on a bridge at Fairview broke last night and threw twenty-six persons in the Cumberland River.

The party was returning to their homes on the south side of the river from services at the Fairview Baptist Church. The foremost of them were half way across when the span fell. The injured were a young daughter of Frank Caywood, a young daughter of Claud Glassford, a daughter of John Sharpe, a boy whose name was not learned, a girl named Wilkins and Mrs. D. H. Howard and her mother. Several others suffered slight bruises.

The water was four feet deep at the spot where the accident took place.—Louisville Herald.

THE SHERIFF'S RACE

J. M. Carnes was duly nominated for the office of Sheriff of Knox County by the Republican voters at the primary. Mr. Carnes will make a good Sheriff and will give every man his due. He has opposition from an independent candidate of whom we have no criticism, but this is a Republican county and we have a man nominated who will do his duty. Republicans should not be drawn aside from their allegiance but should see that the Republican nominee is elected in November. The whole proceeding seems to savor of an attempt by the Democrats to defeat the Republican nominee for Sheriff. They will not succeed in doing so.

CIVIC LEAGUE MEETS

Mrs. James D. Black and Miss Gertrude were the pleasant hostesses to the Civic League Thursday afternoon of last week. The president being absent Mrs. R. W. Cole took the chair. Nineteen members answered roll call after which the secretary read her report. The various committees made reports about the work they had done or hoped to do in the near future. The subject of new officials for our city was discussed at length. These are to be chosen at the November election. The League adjourned to meet with Mrs. W. R. Hughes and Mrs. James Kauffman Thursday afternoon September 22.

A very pleasant social hour was spent and the guests were invited to the attractive dining room where delicious ice, cake and minis were served by Mrs. H. H. Owens and Miss Black.

Mrs. Larkin Miller is improving nicely.

RICKED BY MULE—BRAINS PROTRUDE, BOY RECOVERING

Tom Tuttle, the five year old son of Frank Tuttle of Cannon, was kicked in the forehead by a mule Friday of last week. The blow broke his skull and part of the brain protruded. He was brought to the Logan Hospital where the skull bones were fitted back to place after the piece of brain was removed. No anesthetic was necessary, the boy being in a deeply unconscious condition. Dr. Logan is hopeful that the boy will recover and that his mentality will not be affected.

LADIES AID

The Ladies Aid of the Christian Church held their regular meeting on Friday, Sept. 10th, at the home of Mrs. Charlie Jones. Society was called to order by the president and 14 members answered roll call. After the regular business part of the meeting Mrs. John M. Tinsley read a most interesting paper which she had prepared on "The Early Ministry of the Apostle Paul." This was very instructive as the life of Paul is the subject of the Sunday School lessons this quarter.

The regular session was followed by a social hour when delicious refreshments were served by the hostess, Mrs. J. S. Miller. Mrs. John W. Hughes, Mrs. W. T. S. and Miss Evelyn Trotter were also at the social hour. All left happy and it was a most enjoyable evening.

The next meeting will be on Sept. 16th, in the church parlors. Mrs. Shively will act as hostess. All members please come.

Mrs. G. H. Steele, Secretary

SOME PITCHER

That Judge R. S. Rose is a pitcher calling and should have been one of the members of a big league was demonstrated on Tuesday, 16 and Will Amis' retired. He said the bill board that tells about Prime Albert tobacco, next to the Barbourville Supply Company Office, and there and then, with discs and ready twistings and curatations, did, with out malice toward said Will Amis, throw, hurt, pitch, and otherwise transport a baseball to said Will Amis, who likewise did, the same to Judge Rose. As the editor watched it, he saddened to think of a life spoiled by being imprudent. It might have trod the path of a better better late than never.

KENTUCKY NATIONAL RIFLES.

Camp Perry, O., Sept. 9, 1921.
Capt. Ray H. Newitt,
Barbourville, Ky.
Sir:

A few lines concerning the Ken-
tucky National Rifle Team's trip to
Camp Perry, Ohio.

First, we were given the very best
of service from Camp Knox to Camp
Perry, pullman, sleeping and din-
ing service all thru. Every one of
the party seemed to enjoy it im-
mensely.

Camp Perry is on the beach of
Lake Erie and the lake is in plain
view at all times.

Upon arriving here we were issued
new Star Quage Rifles, plenty of
blankets, etc., and were quartered
in tents instead of barracks as was
the case at Camp Knox. Every man
is on an equal basis here and all are
having a great time.

Our mess cannot be equalled by
the best hotels, therefore it is useless
to say we are having plenty of eats.
Today I won the "National Rifle-
man's Medal" by piercing the bull-
eye 10 times in rapid fire shooting
on the 200 yard range.

Am writing these few lines as I
thought you would be interested in
knowing how the Kentucky team is
progressing.

Respectfully,

Sgt. George Jackson,
Ky. National Rifle Team,
Camp Perry, Ohio.

Sgt. Jackson is one of twelve men
selected from about 1500 at Camp
Knox to represent the State of Ken-
tucky in the National Matches at
Camp Perry. There is a possibility
that he will participate in the Inter-
national Matches in Europe in the
near future. The boys of Com-
pany G, 149th Inf. are "pulling" for
him.

CAREERS FOR YOUNG BRITONS

Compared With Opportunities in Amer-
ica They May Be Said to Be
Decidedly Limited.

Here in America we are quite like-
ly to take for granted that if a man
has a good education, then his finding
of an opportunity to apply it profit-
ably is a comparatively simple matter.
Certainly our whole educational pro-
gram, and especially our whole line
of educational appeal and propaganda,
will have to be changed the moment
that assumption is no longer to be
made. Whiting Williams writes in
Scribner's, "Equip yourself, Young
America, and the country's yours!" we
say in effect to our youth, whether in
school or at work.

In Britain there is much testimony
to the effect that that assumption is
not thus to be made.

Unless they spend additional years
training for medicine, the law, or oth-
er of the professions, graduates of the
universities must pretty much expect
to find berths in the civil service. The
exams for that are extremely difficult.
Those who come out of them with
marks at the top of the list get the
best of the positions in the most im-
portant departments at home. They
next go out to India or other provinces,
while those below them take the sec-
ond grade of the places here—and so on.

The pay starts at about £300 (nomi-
nally \$1,500, and considerably more in
buying power), with gradual yearly in-
creases up to a certain maximum and
a pension.

TAUGHT LESSON BY HUNGER

Good Story of How Franklin Was
Converted to the Idea of Fish
as Human Food.

One day Benjamin Franklin—James
Parten tells us in his "Life of Ben-
jamin Franklin"—was on a sloop
which was becalmed on a certain
island. The sailors, as is still the cus-
tom when a ship is becalmed, amused
themselves by fishing. Franklin wit-
nessed the catching of the fish with
regret. But soon there came to tanta-
lize his nostrils a most alluring odor
from the frying pan. So, as Franklin
used to tell the story, he went over
his reasoning again to see if there was
not a flaw in it.

It occurred to him that when the
fish were opened he had seen smaller
fish in their stomachs.
"Ah!" said Franklin. "If you eat
one another I don't see why we may
not eat you!"

So Franklin dined upon the fish
very heartily, and thereafter ate what
others ate. When telling this story
Franklin ended with an observation
which is often attributed to Talley-
rand, but which we are assured was a
familiar joke with Franklin. This
was:

"So convenient a thing it is to be
a reasonable creature, since it en-
ables one to find or make a reason
for everything one has a mind to do!"

Persian Bread Has Many Uses.

At Kaavin, Persia, a British patrol
base, we were lodged in empty wards
of the military hospital, writes Mary
E. Griscom in Asia Magazine. Our
provisions had almost given out by
this time, and we were reduced to
Persian stone bread. So far as I
know, only the coconut and the bam-
boo serve more purposes than the
flaps of Persian bread, which are
about two feet long, one foot wide
and a quarter of an inch thick. If it
is raining, the Persians use them on
their heads as umbrellas; and if it is
sunny, as parasols; in winter, they
wrap the flaps around their shoulders.
If they do not need them for protec-
tion they roll them up and carry
them under their arms. In the low-

pitfalls they spread them out on empty
beds to dry.

Up the Flowery Mountain.

Every year thousands of Chinese
pilgrims risk their lives in climbing
up the side of Hwa-Shan, the Flow-
ery mountain, which is sacred to the
Taoist religion. Any one reaching the
temple far above is supposed to have
any request granted as a reward for
valor and endurance. The Hwa-Shan
mountain is over 6,000 feet high, and
the ascent in many places must be
made along a narrow ledge of branches
laid on posts driven horizontally into
the face of the precipice. There are
no handrails, but a chain held on a
rock face offers some security to the
ascending or descending pilgrim.

Entrances Must Have Made "Hit."

One Sunday morning a crowd was
standing on the depot platform, a
short distance from our home, waiting
for an excursion train. The night be-
fore we had hung curtains around the
broad front porch, and were sleeping
out there on our steel-winged cot, as
it was very warm. I was sleeping
close to the edge and when my wife
got up rather suddenly over went the
cot and I rolled out onto the lawn,
clad only in my nightshirt, in plain
view of the waiting crowd.
I didn't go with my wife to meet the
returning excursion that evening.—Ex-
change.

Two Methods.

"Now that you are earning a bigger
salary," said the wife with social am-
bitions, "surely we can afford a big-
ger flut?"

But the husband was a man of sim-
ple tastes.

"We're very comfortable here," he
said. "But if you like we'll ask the
landlord to raise the rent."—Tit-Bits.

Grecian Girl Provides the Home.

In some parts of Greece no girl can
ever hope to find a husband until she

LOGAN HOSPITAL

Clarence Banks is making a good
recovery from typhoid fever. He is
able to sit up and take notice and
will soon be able to follow the golf
ball over the course.

Joe Smith of Allison Avenue, who
was operated on for appendicitis last
Monday, is doing nicely, thank you.

Mrs. Thomas Smith, of Hammons
Fork, who was operated on for
hernia, has been able to go home.

COMPANY G MAKES GOOD

After fifteen days of intensive
training at Camp Knox, Company G
149th Inf., returned home Sept. 6th
with sixty-four men. All report a
wonderful time.

About six days were used in hunt-
ing the enemy in squads and sec-
tions. The enemy consisted of tar-
gets thrown up several hundred
yards ahead or at one side of the
attacking forces, without warning.
As soon as the targets were up the
men would go to the prone or kneel
position with their rifles and punc-
ture these targets full of holes. An
accurate record of this shooting was
kept and Company G was among the
first.

A demonstration of a real battle
was staged along a 700 yard front
by the regulars and this was a treat
for all those who were able to see it.
Smoke screens, trench mortars,
heavy artillery, tanks, machine guns
with tracer ammunition, airplanes, ob-
servation balloons, bombs, hand-
grenades and all the modern ways
were employed in taking the posi-
tion. This demonstration consumed
about two hours and a great deal of
ammunition was used in showing the
members of the National Guard just
how a position should be taken.

The pay for the men ranged from
\$17.00 to \$42.00 for their time at
encampment—this in addition to
traveling expenses, board and lodg-
ing.

George Jackson, Ed Hinkle,
Frank Bush and Jackson Taulbee
qualified as marksmen in the record
shooting on the range. George Jack-
son and Ed Hinkle shot sufficiently
high scores to make the Team of
twelve men which represents the
State of Kentucky in the National
Shooting at Camp Perry, Ohio.

Capt. Newitt informs us that Com-
pany G will hold an encampment
of its own at some point down the
river some time after their equip-
ment arrives and this is expected
within the next few weeks.

CHAS. GUY SHOT AT MIDDLESBORO

According to the Daily News, Middlesboro, Chas. Guy, special agent for the L. & N. R. R. was shot and his spinal column broken by a hobo whom he was asking to leave a passenger train. His condition is critical.

OH, RATS!

There was great excitement outside the Beddow Store on Monday night. It was evident that the place was being ransacked. A knocking noise was heard by Ben Gregory, Charlie Owens, Dewey Wyrick, Sawyer Decker and W. A. Brittain. They peered into the store at the risk of their lives but could see nothing in the dark interior. Nifty hands were in the shape of guns was secured and it was, then suggested breaking in the door or window by the more venturesome members of the party, but as Mr. Beddow lives not far from the store, it was decided best, considering the price of door locks, to get the keys from him. Meanwhile, the improvised deputies stood guard with loaded guns to see the looters might not escape.

Came Mr. Beddow with the keys and the door was opened. It was a tense moment. Would the looters fire on the party? They did not. The light was thrown on and the thief was revealed. It was a rat of ample proportions, which had been caught in a trap, but not enough to prevent it from being able to dash around with the trap and a three foot chain which was what made the noise. However, had it been a two-legged thief, he would have been up against the real thing. The young gentlemen got some real excitement and a good laugh out of the incident:

PLEASANT DINNER PARTY

On Sunday last Mr. and Mrs. Robert W. Cole entertained with a delightful family Sunday dinner in honor of Mrs. W. B. Minton before her departure for Maryville, Tenn. Mrs. Minton's mother having been a "Cole" from Vermont, she has always been claimed by this family as "folks" which has added much to her stay of four years in Barbourville and the dinner was like a family gathering. An auto ride prolonged the pleasant occasion. Those present were the host and hostess, Mr. and Mrs. Robert W. Cole and daughter Miss Roberta, Rev. and Mrs. W. B. Minton, Emily and William Minton, Mr. and Mrs. Fred Hurman and Bertha Burman.

PERSONAL MENTION

Congressman J. M. Robison has gone to Frankfort and Louisville on a Good Roads mission.

John L. Stanfill spent some days in Louisville this week at the Fair where he met all the other grocery men of the State.

You can get the best education you are willing to work for at Union College.

Mrs. F. H. Gatling, who has been visiting her parents, Mr. and Mrs. W. R. Ballinger, has returned to her home at Purcell, Oklahoma.

The Methodist Conference for the State of Kentucky will meet at Covington next Wednesday. Rev. John Owen Gross, Dr. Franklin and Dean Ryder will attend. Rev. Gross has been invited to return as pastor for the coming year and it is expected that the bishop will accede to the asking of the church. The Advocate and the people of Barbourville will be glad to keep Rev. Gross.

Union College is synonymous with efficiency, thoroughness and practicality. A high grade school at your door. Take advantage of it and be in the entering class next Tuesday for Academy, Normal or Collegiate work.

John Croley says that when in Oklahoma he made a trip to another point and on his return the cotton which had been fine had been destroyed by the army worm. Farming is a great proposition.

The Civic League will meet Thursday of next week with Mrs. James Kauffman and Mrs. W. R. Hughes.

Learn Cooking, Sewing, Millinery, House Decoration and other Household Arts at Union College.

Miss Maggie Garrison, of the Advocate office is taking a vacation with her people at Glrdler. During her absence Mrs. Elsie Lanthank Diney is back at her former post.

Mr. and Mrs. E. N. Matthew were in Knoxville one day this week on a shopping expedition.

Dr. W. B. Minton left Thursday morning for Manchester to attend a meeting of the Backhorn Presbytery. He will return Monday.

Mr. Alex Sevier received a telegram this week stating that Mr. Ed Madden, father of W. J. Madden of Hays, Kansas, died Sunday morning. W. J. Madden is himself quite sick at the St. Joseph's Hospital, Kansas City. His friends here will sympathize with him in his loss and will wish him a speedy personal recovery.

Remember to inform yourself on the two educational amendments to be voted on at the November election. According to the best authorities these will prove a new era in Kentucky's educational system if put in force. Let's vote "yes" for we need a boost.

B. B. I. enrolled and registered the largest number of students on record for its first day last Tuesday. The student body is enthusiastic and ready for the year's grind.

KEEP YOUNG

People with bad backs and weak kidneys are apt to feel old at sixty. Many old folks say Doan's Kidney Pills help them keep young. Ask your neighbor! Here's a Barbourville case:

J. H. Smith, retired shoemaker, Main St., says: "Doan's Kidney Pills are the best Kidney medicine I ever saw. I had rheumatic pains in my arms and couldn't move them. My joints were stiff and ached awfully. My shoulders, back and limbs pained and I could hardly get about. The kidney secretions were scanty in passage, and highly colored. I was in a bad condition when I commenced to use Doan's Kidney Pills. They soon helped me. The aches and pains left and I felt better than I had for years. I am always glad to recommend Doan's." (Statement given Nov. 6, 1916.)

On March 12, 1921, Mr. Smith said: "I still take a few Doan's Kidney Pills when I think my kidneys need attention and they never fail to help me. Doan's are a fine kidney medicine and I am always glad to speak a good word for them."

MR. BOOTLEGGER, ARE YOU PREPARED TO PAY THE PRICE?

Are you, Mr. Bootlegger, prepared to pay the price of your actions?

Are you prepared to pay for the cost of a God given life, extinguished because you loved money so well that you sold liquor? Are you prepared to pay for the despairing grief of a mother, whose son you have wrecked because you set money above God and humanity? Are you prepared to pay for the lives of little children whose opportunities for good you have ruined, because you loved money more than you cared for those little ones of whom the Great Master said, "Suffer the little children to come unto me and forbid them not." And he took them up in his arms, laid his hands upon them and blessed them." Who also stated that those who offended against these, "he will better for that man that a millstone be wrapped around his neck and he be cast into the middle of the sea."

Are you prepared to pay the price of a man's wrecked life, when instead of being a useful member of society, he becomes a curse to himself and everyone else?

Are you, Mr. Bootlegger, prepared to break every tenet of the brotherhood of man, with Almighty God as the Supreme Father of us all, for fifty money?

If you are, you will be crushed by the wheels of divine justice.

If you are not prepared to pay the price stop handling the devil's murder maker, widow maker, orphan maker, home, life and soul wrecker.

BAPTIST CHURCH Ding Bao Si, A Chinaman

Bro. B. S. Ding, a Chinaman from Kaifeng, Honan Province, China, will speak at the Barbourville Baptist Church Sunday, September 18, both morning and evening.

Mr. Ding came direct from China last October and is well educated. He speaks English fluently and can be easily understood by the average audience. He has been delivering wonderful messages in the leading churches of Kentucky this summer and he always holds the intense interest of his audience. Rev. Ding's coming affords a rare opportunity for the people of Barbourville and community to hear a native Chinaman preach the gospel in your own language. He has humor, wit and pathos as well as religion and you will miss a treat if you fail to hear him.

You are cordially invited to hear him and to bring your friends with you. You had better start in time for the S. S. in the morning and Ch. B. Y. P. in the evening so as to be there in time to get a choice seat.

REVOLVER INVENTED BY BOY

Idea of Deadly Small Arm Was Born in the Brain of Fourteen-Year-Old Runaway.

The revolver, that until the invention of the automatic pistol, was the most deadly small arm known to man, was born of the brain of a fourteen-year-old boy, Sam Colt. Colt ran away from school and shipped on board a merchant vessel bound for the East Indies. He had a good deal of idle time on his hands once the ship was well at sea, and a long period of calm weather followed its movements. He began to seek an outlet for his active imagination and mechanical urge. He attempted various things to aid sailing, but without any great success. He then took to planning a pistol that would shoot several times with a single load. He had only bits of wood and a jack knife to work with, but before the voyage was over he had cut out a model for a revolver very similar to the pattern still in use.

Once at home again, he went to work in his father's factory, but the revolver idea was still in his head, and he worked at it from time to time until he was twenty-one. At this point his experiments had so far advanced that he asked for and obtained patents in America and European countries. A stock company was organized, and from this humble start the great Colt arms factory was begun, and the revolver put on a market that soon carried it around the world.

SCIENTISTS HOLD TWO VIEWS

Are Not in Accord in Their Explanation of Origin of the Planetary System.

Scientists explain the origin of our planetary system in two ways. One of these is the gaudier nebular hypothesis of Laplace. The other is the planetesimal theory of Professor Montan, which is probably the most correct one. According to this theory our planetary system was originally a vast spiral nebula. The planets were formed by accretions of matter in the spirals of the nebula. Our earth and its satellite, the moon, were formed in this way. The moon being a smaller accretion of matter, was naturally attracted by the earth, which was possessed of enough gravitation to hold the moon. The moon therefore is not a child of the earth, but speaking in everyday parlance, we might call it an adopted child. This theory explains a great deal that the nebular hypothesis does not. There are vast numbers of such spiral nebulae in the heavens, indicating that this is nature's accepted way of creating new worlds, and it is for these reasons that I accept this view of the formation of the earth and the moon.—Pittsburgh Dispatch.

Two Cold Inaugurations.

Two presidential inaugurations especially noteworthy weather were those of Taft and Grant. The rough, thousands of people became sick from exposure during Grant's second inauguration, and in 1901 it is said the coughing of people who had colds was so great that the orchestra in the inaugural ball could hardly be heard.

The Taft inaugural ball began in Washington the afternoon of March 3, 1909. It continued all night, and the snow in the capital the next day was so deep that it seemed impossible to have a parade. But the parade was held, and on a street swept clean, thanks to the Washington street department, which removed thousands of wagon loads of snow and slush from Pennsylvania avenue. Many people became sick from standing in the snow or sitting in the cold stands to watch the parade. There was much suffering caused by exposure. President Taft's reviewing section was enclosed in glass and heated by electricity.

"Robinson Crusoe's" Musket.

The musket said to have been given to Alexander Selkirk when he was put ashore on the island of Juan Fernandez, 400 miles off the Chilean coast, has been going the rounds of British museums.

It was Selkirk's adventures upon which was based the famous story, "Robinson Crusoe." The musket is inscribed with the name of "A Selkirk Largo, 1771." It was purchased by Randolph Berens for \$10.00, but the owner has insured it for \$10,000.

Selkirk owned a tavern near Clapton, but died in 1729 at sea as a lieutenant aboard a naval vessel.

Washington Made Custom.

It was Washington's custom that established the custom for all future inaugurations to be made in public. When the time for Washington's second inaugural came around he was in doubt as to the proper method of taking the oath for his second term. He addressed a note to his cabinet asking for their opinion as to whether it should be public or private. The cabinet at that time was divided. Jefferson and Hamilton recommended that it should be private. Knox and Randolph reported in favor of making it public, which was done.

Soft, as It Were.

"All the young ladies are raving about your new clerk's melting eyes." "Let 'em rave," said Mr. Grumpson. "I've never known a chap with melting eyes whose brain wasn't in the same condition."—Birmingham Age-Herald.

625,000 BOTTLES SOLD IN NEW YORK

Biggest Thing Of Kind Ever Seen in That State, Declares Big Wholesaler.

The fact that 625,000 bottles of Taulac have been sold in the state of New York since its introduction there less than one year ago, is a big business item that will attract unusual attention throughout the entire East, for nothing like it has ever happened before. It breaks all records.

Mr. George B. Evans, manager of the Gibson-Snow Company, the well-known wholesale druggists, with branches in Albany, Buffalo, Rochester and Syracuse, recently announced that the preparation was now selling in their trade territories alone at the phenomenal rate of approximately 500,000 bottles a year.

"At the present rate continues," said Mr. Evans, "this state alone will probably require considerably over 750,000 bottles a year. This is a tremendous figure, but I am really conservative in making this statement."

Taulac is sold in Barbourville by the Cat Rate-Drug Co., and by leading druggists everywhere.—Adv.

ORDINANCE

The Board of Council of the City of Barbourville, Ky., do ordain as follows, viz:

1. That all territory now embraced within the corporate limits of the City of Barbourville, lying to the south and west of the following line, be stricken therefrom, viz:

BEGINNING on the top of Bald Hill, at a point where the present corporate line crosses a rock cliff; thence a straight line to the intersection of the Williamsburg road, Candill Avenue and Penlar Street; thence with the east side of Candill Avenue to the drain that crosses said street; thence with said drain to the southwest corner of W. C. Faulkner's lot; thence a straight line, in a southwest direction to a 15 inch maple and a 6 inch forked maple on the bank of Cumberland river.

2. The City Attorney will institute an action in the Knox Circuit Court against all persons resident in or owning property in said territory, for the purpose of securing the judgment of said Court in connection herewith.

Approved:—September 5th, 1921.

COURT IS FUNCTIONING

The Circuit Court which closed down Saturday has put further nails in the murder coffin. Juries of Knox County have decided that the killing game must stop. This is a civilized community where the Ten Commandments are believed in as the basic principles of society and among the Commandments is one which says "Thou Shalt Do No Murder."

In the past the rule has rather been "Thou shalt murder and get a hung jury." But thanks be to a hotter sense of citizenship, that day is past.

It is safe to say that with juries making the killers pay the price of killing much of the bloodshed will cease. As a consequence there will not be as many widows and orphans left without the strong arm of husband and father to smooth out the rough places of life. Also, it will be possible for citizens of Knox County to carry accident insurance policies without having them cancelled and the economic development of the county will have a fair chance to go ahead unhampered by the fact that some irresponsible fellow can commit a cold blooded murder and get away with it, either by evading the sheriff or by a hung jury.

Almighty God, who is the Author of Life and its destiny, gives no man the right to take the life of another and our juries are recognizing that fact. Of the four homicide cases brought on trial, one received a life sentence, two 21 years, and the third, a girl, four years. In the last case the jury was possibly swayed by her youth and the fact that the murdered man was a foreigner.

DEFECTIVE EYESIGHT

A prominent health officer recently stated that of the 100,000 pupils of the New York City public schools who failed to be promoted, fully half—50,000 children—are held back by defective eyesight and not by lack of brains.

This authority states: "It is amazing how many persons there are in the United States suffering from defective eyesight. In the first draft of the American soldiers in 1917 bad eyesight caused nearly three times as many rejections as any other physical defect. At the time of this draft 2,510,706 men, between the ages of 21 and 31, were examined and 730,766, or 29.11 per cent, were rejected for physical reasons. One table, based upon the rejection of 10,258 men from representative sections of the country, showed that 2,224 had been rejected for defective eyesight, a percentage of 21.68."

Gradually the general public is realizing the importance of caring for the teeth in order to preserve good health, but the eyes, the most important part of our physical equipment, are often neglected until the neural fear of blindness drives the sufferer into the taking the necessary means for preserving them.

"The proper time to remedy defects in eyesight is when boys and girls are young. No child should be sent out into the world handicapped by a defect, that in most instances, could be overcome by a pair of glasses, properly adjusted at the proper time."

ORDINANCE

The Board of Council of the City of Barbourville, Kentucky, do ordain as follows:

WHEREAS, the territory embraced within Barbourville Graded and High School district, as heretofore existing and as it now exists, extends beyond the corporate limits of the City of Barbourville, and the territory embraced within the colored common school district of the City of Barbourville, likewise extends beyond the corporate limits of the City of Barbourville, Kentucky, the Board of Council of the City of Barbourville, Kentucky, deem it to be the best interest of the white children of said city and district and to the colored children of said city and district, within the school age, and entitled to attend schools within said districts, that the affairs of said schools and said schools be governed and controlled by separate boards—a white board of education for the white school, and a colored board of education for the colored school:

AND WHEREAS, from and after the passage of this ordinance the affairs of the white school in said district, and said white school, shall be governed and controlled by a white board of education, and the affairs of the colored school in said district and said colored school shall be governed and controlled by a colored board of education, each of said boards of education to be elected by the qualified voters of said districts, respectively, in the manner provided by an Act of the General Assembly of the Commonwealth of Kentucky, entitled—

"An ACT defining boundaries for school districts embracing cities of the fourth class, and providing systems of schools in such districts, providing for election thereof, defining their powers and duties, and repealing all laws in conflict therewith"

which became a law by approval of the Governor and was approved March 13th, 1920, and is now Chapter 14, of the Acts of 1920.

Approved—September 5th, 1921.

BALDWIN'S FAREWELL ADDRESS

To The People of Barbourville:

I am anxious to see all the people of Barbourville and Knox County in the auditorium of the Court House at 7:30 o'clock Monday night, September 26.

On this occasion I will speak to the people upon the subject of "What's The Matter With Kentucky?"

There's something wrong, you must admit. I think I have the remedy and I think I can tell you how to set things right.

Remember the date. Tell your friends about the subject and the speaker. Use the telephone, the post office and your tongue to advertise this meeting.

This is perhaps the last speech I shall ever make in Barbourville or Kentucky. I have no ax to grind. Patriotism alone prompts me to make this speech.

Every lawyer, every teacher, every preacher, every business man of every kind is especially urged to be present and to help advertise this speech. It is calculated to help Kentucky and especially Knox County and Barbourville.

Politics, religion, business, education and the administration of the Courts of Justice will all receive their just deserts at my hands that night.

I am not a candidate for any office nor an applicant for any job anywhere in Kentucky. I have all the work I can do without seeking for more.

The only thing I wish for myself is good health and for Kentucky and all Kentuckians I wish all the good things they can wish for themselves.

The children of the Smoky School will sing at this Meeting.
H. N. BALDWIN.

ETERNAL LIFE

"I am come that ye might have life and have it more abundantly."
John 10: 10.

The only reason for the first advent of Jesus Christ was the destitution of life to the human race. Life had been forfeited by Adam's disobedience. Because Adam sinned mortality was fastened upon all the sons and daughters of Adam.

Because Adam sinned he became mortal. Adam never had eternal life. No man can transmit to posterity what he himself does not possess. Hence all the human race was destitute of eternal life when Christ made His first advent.

If man had possessed eternal life why should Christ come that he might have life? Can man have a more abundant life than eternal life? If he possessed eternal life what reason for Christ to come?

It seems that John wisely thought that all the beasts of the field will be brought to life again at the resurrection. I do not endorse Wesley's view, but I do say that if Christ had not come neither man nor beast would ever live again after the stroke of death has caused our life and existence to cease.

"The Son of man is come to seek out and to save that which was lost." Matt. 18: 11 and Luke 19: 10. What was lost? The whole human race was lost. If Christ had not come to help the human race recover what Adam lost man would be no more than the beasts that perish. Death would be an eternal dreamless sleep except for the way of escape therefrom made thru the atonement by Jesus Christ.

Because Jesus is now immortal He has power to bestow life to whomsoever He wills. "He came to His own and His own received Him not; but as many as did receive Him to them gave He power to become the sons of God." The sons of God will live forever, because Christ came to give them life.

If man was immortal by nature, or if God endowed him with an immortal soul he had just as much life without Christ as he could possibly have with Christ; therefore Christ would be unnecessary. No scheme of redemption could save an immortal man nor could any plan of salvation add one moment of life to any human being who already had eternal life. But because of man's mortality and man's destitution of life and his lost condition in death Christ was needed.

Now, since He came and brought life and immortality to light thru the gospel, it is necessary for man to comply with requirements of the gospel. The requirements say "believe," "repent," "be baptized," and "continue faithful unto death."

"By faithful continuance in well-doing" man now has a chance to obtain eternal life at the final judgment. No man has eternal life now. No man can obtain eternal life except by patient continuance in well-doing. No wicked person can ever obtain eternal life.

Therefore "man that is in honor and understandeth not is like the beasts that perish." Ps. 49:20.

G. M. Richards, manager of the C. & M. R. R., went to Richmond the end of last week. From there he went to Winchester, Ky. and on to Atlanta and Rome, Ga. While in Rome he will do as the Romans do but primarily there on business connected with his road.

Just received a large shipment of the wonderful remedy, Tanlac. This is the great medicine you have been hearing so much about. The remedy that's made such a wonderful reputation and which has accomplished such remarkable results all over the United States and Canada. Get your bottle now at the Cut-Rate-Drug Co.

The New York Store Sale, one of the biggest in its history, is now on and some wonderful bargains are being offered. Mr. Cawn says he has the goods the people want and Mrs. Archibald asks the opportunity to show the patrons of the store just what they have. It does not cost anything to look over the goods.

Rev. E. J. Terrell, of Broadhead, Ky., was here this week visiting Dr. E. T. Franklin of Union College who was converted by his ministry when a boy. He persuaded Dr. Franklin to go ahead with his education and later officiated at his wedding. He is thoroughly satisfied with the result of his labors.

Mrs. Christie Broughton, of Dayton, Ohio, who has been visiting her parents, Mr. and Mrs. M. Cannon, left Monday for Dayton, Ohio, to resume her position with the Wolf Tailoring Co. Her son, Otto Smith, went home with his mother, as did Will Cannon and wife also. The trip back was made via Covington. They will visit relatives in both cities.

Tom Lambert, of Swan Pond, and Dr. Wm. Burnside are both garden enthusiasts and especially in regard to strawberries. In the growth of which they are experts. Mr. Lambert some time ago found a strawberry growing wild and it is giving remarkable results, bearing as many as fourteen berries on one shoot.

J. F. Hughes, Charlie Cole, J. F. Rasnick and E. S. Dudley, of the firm of Cole & Hughes, went to Detroit Friday to get trucks for the Dixie Wholesale Company and the grocery store. That is the store report but the Advocate is of opinion that what they really went for was to try to buy out Henry Ford who has now got interested in railroads. It is not long since Charlie showed himself a financial genius by buying Belgian hares. Hence this trip.

Mrs. W. H. Minton and children, Emily and William, left Monday morning for Maryville, Tenn., where Mrs. Minton will teach in the Presbyterian College. Mrs. Minton is looking forward with pleasure to her work which will be teaching college Spanish. The institution has a campus of some 250 acres and over 1,000 students in attendance. As in Barbourville, the housing situation offers difficulties, so Dr. Minton, on a recent trip to that place, was fortunate in buying a pretty bungalow near the college. Dr. Minton will remain in Barbourville for a while before going to Maryville as he has work to do in Clay County and will remain in charge of his work in this section.
